PREVENTIVE CARE PLAN OVERVIEW

Dogs and cats age at a much faster rate than people. For every year that you age, your dog or cat can age from 6 to 8 years.

Your pet's medical and nutritional needs change as their bodies age. A **Preventive Care Plan** helps manage their evolving health care needs by monitoring vital organ function and detecting problems early, before they become life threatening.

Every **Adult Preventive Care Plan** offered by **Raintree Pet Resort + Medical Center** includes all necessary examinations, vaccines, laboratory tests and other services essential to protect your pet against illness and disease. An upgraded plan is designed to provide additional services like routine dental cleanings, radiographs and more extensive blood work. Our goal is to keep your pet healthy and happy during the prime years of their life.

Adult Petly Wellness Plans are designed for pets older than 7 months of age.
